

Movie Review

Similar to the book review you just did, the purpose of a movie review is to help people decide if they might like to watch the movie. Also like the book review, a movie review does not reveal details. It is the written version of movie trailer or preview.

For this movie review assignment, you will use your comprehension and writing skills.

1. Choose a movie that is appropriate for showing in a grade 10 classroom. It is ok if you pick something that you have seen before, but not something that is too childish or that is inappropriate for a teacher to show in school. The movie you choose should have a connection to First Peoples. This connection might be in the characters/actors, setting, theme, writer or director. Email the teacher if you need a list of suggested movies.
2. Look at the title shot and make some notes about what you expect the movie is going to be about and why you chose to watch that movie. If it is a movie that you have seen before, try remembering back to the first time you watched it and what you were thinking.
3. Have paper and pen/pencil next to you when you are watching so that you can make note of your thoughts as you watch.
4. Once you have finished watching the movie, start writing your review.
5. Submit your completed assignment via email to swilliams@sd85.bc.ca. Share a google doc, email a file from another word processing program, or take pictures of handwritten work and email the photos.
